

WHITEPAPER

Aug, 2023

BACKGROUND

Currently there are **over 22k crypto** tokens issued in 2023. Most of them are a scam. The rest are about some project. Around 350 coins are available for trading on Binance as the largest CEX. The general **purpose of the TOP trading coins are mainly technical** (eg. faster/cheaper/more clever network or interchange between these networks) or a DeFi related (eg. Loan or Staking). This is a bit **“l’art pur l’art”** - like developing a faster motor, but never using it.

Blockchain is a really cool and **innovative infrastructure**, which makes the **world more independent** from “the Ones”, and gives **freedom to Creative Individuals**. More and **more projects** are expected to appear which fill out these coins/tokens/projects with **business content** from all over the world.

Issuing a coin is easy. However without content it will be one of the unused 22k. Being **part of a working ecosystem** that will provide it with content. A coin must have a **purpose** to be used, which provides it with real **value**. That’s all. **COINROBOT** is one of these.

THE PROJECT

The Project started in 2021 with the goal to build a **fully automated, intelligent crypto trading bot**. The primary requirements were towards the Robot to **think instead of us**, to **trade without loss** and to **circulate the capital increasing the number of the selected coins**.

The crypto market is very volatile. And that is perfect for the business idea. The coin prices are constantly changing, but the market as a whole moves together. There is an **equalization between the exchange rates**. And this is the basic idea on which the project was built.

Most of the people do **not want to configure** their Robot all day nor do not wish to fine tune the parameters or to constantly follow the market. But are interested in crypto.

Blockchain and AI technology is the future. More and more business will appear. Therefore the coin prices will rise. Most crypto traders **believe in a "bull run"** and are not concerned about when it happens. Therefore the goal for the Robot is not to increase the

value of the portfolio in dollars. The goal is to **increase the amount of coins in which you trust!** Simply stated: having **more coins** results in **more value** as the market rises. So the question is not how much BTC/ETH/CAKE is worth now. The question is **how many coins you own** from those you believe will increase in value.

Coin Robot with AI intelligence uses the past stats to make the decisions for the present and the future. It evaluates the market in 0-24 and creates the best but still secure **trades to increase the number of the selected coins**. The project is named **CoinRobot.AI** and its **native token is COINROBOT**.

CoinRobot.AI will **never close the positions with loss** in the number of initial coins (unless you set it so by StopLoss). If the price of the coins rises Robot will **BUY** and **SELL** to realize a profit and increase the amount of coins. If the prices falls the Robot will **CONVERT** between coins, to **increase the number of the coins**. That's all.

CoinRobot.AI project is planned to grow in order to **manage the capital intelligently**. Currently it runs on the largest CEX

supporting **60+ coins**. It is planned to also **work on DEX with any coin** you prefer. **You select the coins** you trust and the Robot will do the rest.

CoinRobot.AI is accessible through web at <https://coinrobot.ai>. Each user has an **own instance**, with own web-office. The Robot uses **API with trading rights only** (NO withdrawal). Your coins are **always in your Wallet**. You may **drill down** any time in config and in stats, or leave the Robot to work and get emails on your growth. We try to keep everything **simple**.

CoinRobot.AI is an ecosystem on blockchain. It **increases** the number of your **coins** from your **own wallet** and is fully **controlled by you**. **Beta testing** started in Aug 2022 with **70+ real traders**. The trading logic is closed at the end of March, 2023. The **COINROBOT token is issued in Aug.2023**. The **go to market** is scheduled to **15th of October, 2023**.

COINROBOT token is the "fuel" for the Robot, which circulates in a **decentralized** way and is publicly available through **Pancakeswap**.

THE COIN

CoinRobot.AI project issued **COINROBOT** token on **BsC** network.

COINROBOT contract address is:

0x3FD230b77ad19AaF6330da7854eC76d5AEb49eAd

Network: BSC, BEP-20

COINROBOT token is the **"fuel"** for the **CoinRobot.AI ecosystem**.

Computational operations require resources that must be provided in advance in **BNB** coin or **COINROBOT** token. Each CoinRobot.AI instance has its **own BsC address**. CoinRobot.AI usage will always be **10% lower** when the "fuel" is secured **in COINROBOT** token **instead of BNB**. The price of COINROBOT is **not fixed to the BNB** price. Instead, the **final value** to be given to the Robot is calculated at the **current exchange rate** to ensure the **discount** when using the native token. So you always pay **10% less in COINROBOT** than in BNB. Worth it? We think so.

The **COINROBOT ecosystem** becomes live with **circulation** of this coin: each piece of COINROBOT returns back to the Robot.

In **summary** **COINROBOT** token may be used to **manage your crypto** capital with CoinRobot.AI, or can **HODL** for later profit.

COINROBOT can be obtained from **Pancakeswap** for USDT.

Link for USDT /COINROBOT pair :

<https://pancakeswap.finance/swap?outputCurrency=0x3FD230b77ad19AaF6330da7854eC76d5AEb49eAd&inputCurrency=0x55d398326f99059fF775485246999027B3197955>

COINROBOT is **available** in most **know wallets** using the **address** above, but it can be swapped from any coin in your **Metamask**.

DISTRIBUTION

The **COINROBOT token** will be **distributed and used** as it is detailed below.

Development will use **10%+10%** to ensure continuous quality coding using top technology.

Support's part **10%+10%** to ensure that user experience meets with our expectations.

Market management uses **10%** to cover the market related activities. **50%** of the coins will be on market by deployment rules.

Distribution of COINROBOT is as follows:

COINROBOT Total Supply:	777.777.777	100%
Development management: <small>0x3bD61a544b96eB7f9ACC0c340f5205585cB56006</small>	77.777.777	10%
Development: <small>0x57Dd87eF9B008a837A98dD16b8cEa08509EBc65F</small>	77.777.777	10%
Support management: <small>0x196cD4f5c4549eD49A10329Fd665a4133A84DE50</small>	77.777.777	10%
Support: <small>0x5a0721699E435150648B6301B8bCAe02DC4aC392</small>	77.777.777	10%
Market management: <small>0x9992bD9F73417944e9036BDa5064Ba69a65dc720</small>	77.777.777	10%
Market: <small>0x116879C578F54A887800D16114a03056D6e13dB0</small>	388888888	50%

Enter to market (ICO) **actions done** until Aug, 2023:

COINROBOT on market in Aug. 2023	1.022.108	0.131%
Market (Pancakeswap) min.price: 1\$	11.000	~0.001%
Market (Pancakeswap) min.price: 1.25\$	77.777	0.01%
Market (Pancakeswap) min.price: 1.5\$	77.777	0.01%
Market (Pancakeswap) min.price: 1.75\$	77.777	0.01%
Market (Pancakeswap) min.price: 2\$	777.777	0.1%

Market **deployment rules**:

- 1.\$** Always **+1%** of the Supply (**7.777.777 COINROBOT**, up to the 50% limit) if the amount of the COINROBOT tokens falls **below 10%** in the current **liquidity pools**, compared to the **initial amount** of the pools. The +1% is launched at the **market price + 10%**, after **48 hours** when it is **publicly announced**.

2.§ The **COINROBOT tokens** transferred back to CoinRobot.AI project will **circulate back to the Market**.

3.§ **Support** and **Development pools** are **locked**. Pools may be freed up in **the max.1% ratio of pooled USDT**.

4.§ **Burning** option is available but is **not planned** to be used. A minimum of a **3 month** period will be left after a **public announcement** before its usage.

5.§ **Minting** option is available but is **not planned** to be used. A minimum of a **3 month** period will be left after a **public announcement** before its usage. Minting is **only allowed** if more than **777.777 active user** will use CoinRobot.AI.

6.§ **No airdrops**.

SCHEDULE

Basic rule: **no stress.** ;)

What is known:

- COINROBOT token has been **issued in August 2023**, and is available on **Pancakeswap**. The **initial offering** is detailed **above**.
- CoinRobot.AI project will be **publicly available** until the **end of 2023**. Please follow us at <https://coinrobot.ai>
- The Robot will **work as** it is described in **“The Project”** section.
